

Place I will go

Mason R.

East Naples Middle School

This is my life story

I try not to worry

About the sorrows

And try to wish for a good tomorrow

I keep my head held high

And try to touch the sky

To hope for a good surprise

I want to go everywhere

All the haters hate but I don't care

In the future I want to do my best

But first I have to get all the stuff off my chest

I'm going through all my troubles

Life is like football try to recover all the fumbles

My Mom told me to always succeed

Succeeding is like being free

That's what it all means to me

I am the lock and school is the key

That is how school makes me

Always look forward never look back

Because looking back is like being smacked

I fell

And got back up if not it is like being locked in a cell

So you see

You can always succeed

People say dreams come true

That is just what you think you can do

Believe in you self

And it won't just feel like you are sitting on the top shelf

Always do what you want

Don't let other people taunt

Succeeding is like Believing

I am playing baseball people are saying why you are stealing

Because that is just how I am feeling

I am feeling confident

Because I have so much self confidence

I want to express my feeling

While my mind is mentally healing

This what I want you to do

Because people will always believe in you!!!!
